Professional Summary

Computer Science Engineering student with hands-on experience in web development, problem-solving, and technology-driven projects. Skilled in Java, JavaScript, HTML, CSS and Data Structures & Algorithms, with strong interest in OOPS, DBMS, and software development. Proven ability to learn quickly, collaborate effectively in teams, and build practical solutions through hackathons, virtual internships, and academic projects.

Technical Skills

Programming Languages: Java, JavaScript
Web Technologies: HTML, CSS
Core Concepts: OOPS, DBMS, Data Structures & Algorithms, Operating Systems
Domains: Web Development, Software Development

Projects

Hazard Control *Tech Stack: HTML, CSS, JavaScript*

- Developed a web-based platform for efficient reporting and management of ocean hazards.
- Designed a user-friendly interface for easy hazard reporting and tracking.
- Enabled faster response and improved communication between users and authorities.
- Built using HTML, CSS, JavaScript, and MySQL with integrated database management.

Cosmic Lens *Tech Stack: HTML, CSS, JavaScript*

- Developed a platform for exploring high-resolution satellite imagery from NASA satellites.
- Designed to support research and educational learning through space-data visualization.
- Focused on improving accessibility and simplified exploration of satellite images.
- Built with an emphasis on user-friendly navigation and efficient data presentation.

Krishi Unnati *Tech Stack: HTML, CSS, JavaScript*

- Developed a web-based platform aimed at assisting farmers across India with easy access to agricultural resources and information.
- Implemented a blog section to provide farming insights, updates, and educational content.
- Integrated language translation support to improve accessibility for users from different linguistic backgrounds.

Education

Bachelor of Technology — Computer Science Engineering

Gyan Ganga College of Technology, Jabalpur	CGPA: 7.33 2023 – 2027
Class XII (CBSE) — Royal Senior Secondary School	64.6% 2023
Class X (CBSE) — Royal Senior Secondary School	84% 2021

Certifications

NASA Space Apps Challenge 2025 'Galactic Problem Solver'	October 2025
Juniper Networks Networking Virtual Internship	Jan – Mar 2025
UiPath RPA Developer Virtual Internship	Oct – Dec 2024
Palo Alto Cybersecurity Virtual Internship	Apr – Jun 2024
